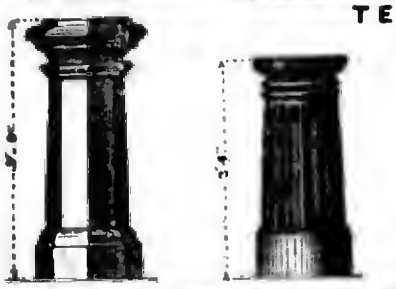
TERRA-COTTA CHIMNEY-POTS,

MANUFACTURED BY

HENRY DOULTON & Co., LAMBETH.



A cheap, ornamental, and IMPERISHABLE Chimney-pot has long been a desideratum. H. D. and Co. now offer a great variety of their Terra-Cotta Chimney-pots, at little more than the price of common cement. Being vitrified, they are absolutely impermeable, and will retain their sharpness and freshness unimpaired by the lapse of time. The colour is that of stone.

DRAWINGS AND PRICES ON APPLICATION.

The price hitherto charged for good Terra-Cotta Ornaments has almost precluded its use. H. D. and Co. are now prepared to manufacture ARCHITECTURAL ORNAMENTS of all kinds, from the designs of architects of moderate prices, and they now expect this valuable material will come into general use.

IMPROVED OAK STAIN.—H. B. IBBOTSON, VARNISH-MAKER, Hammersmith, begs to call the attention of architects, builders &c., to his improved OAK STAIN of any shade, now in general demand. It is greatly superior to all other stains, as it can be laid on the naked wood without size or other preparation, and, being an oil stain, will not wear off. Pattern Boards may be seen at the Office of "The Builder," or had at the Manufactory.

BELL'S PATENT LIQUID CEMENT is ready for use, and only one-eighth the cost of oil-paint. For beauty it is pre-eminent, giving the exact appearance of PINK CUT STONE. It can be used at once on fresh Roman Cement, or any other plastering, and will protect the walls as well as Roman Cement. In casks of 1, 2, and 3 cwt., at 4s. 6d. and 8s., casks inclusive.

PATENT MINERAL PAINTS.

Invaluable for cheapness, beauty, and permanence. One half the cost of other paints always ready for use, will keep good for years, and therefore well suited for exportation. Brilliant blue, 8s.; rich browns, 3s. 6d.; greens and light colours, 4s. per gallon.

G. BELL and Co., 8, Wellington-street, Somerset-street.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4, Porchester-terrace North, Paddington.

13th February, 1850.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, and a brick, having been laid before the 1st of June!—this is to say, in three months and odd weeks I stuccoed the walls throughout with Parian; papered some, painted and marbled others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,

WM. SCANTLEBURY.

Messrs. Chas. Francis and Sons, Nine Elms.

GRAY STONE and WHITE FLAME LIME WORKS, BEWLAY CLIFF, on the Medway, KENT.—GEORGE POTTER and CO., having added the old and well-known business of the Purbeck Wharf, Earl-street, Blackfriars, and Camden-town, to their former trade establishments, are ready to supply Contractors, Builders, the Companies, and the Trade generally, with Gray Stone, White Flame, and Chalk Lime, upon the most favourable terms. Address to the following depôts:—

City—Purbeck Wharf, Earl-street, Blackfriars.
Pimlico—Grosvenor Basin.
Chelsea—Drayton Wharf.
Paddington—No. 10, North Wharf (adjoining Great Western Terminus).
Camden-town—James-street.
City-road Basin—Wharf-road.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through long detention at sea, has often proved stale and unfit for use on its arrival in London. By the arrangement now made the Cement will be manufactured in London, and thus presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for in-door flooring instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brick-work, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the finest material for building sea and river embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufactories—J. B. WHITE and SONS, Millbank-street, Westminster, and 36, Red-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 201, page 691; and also Nos. 244 and 245, page 343 and 351 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementing qualities, harder, and more durable than any other description of Cement; it does not vegetate nor stain, or turn green; nor is it affected by any atmospheric influence whatever the ultimate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 46, Hanover-street, Liverpool.

GREAVES'S BLUE LIAS LIME, WARWICKSHIRE CEMENT, BLUE SAWN FLAGGING STONE, and MARBLE WORKS, WARWICK.

AGENTS—

Messrs. Nutty and Pore, S. Smith Wharf, Paddington.
Messrs. Gladdish's, Potter's-quay, Lambeth.
Mr. J. Thompson, Black King-street, Manchester.
Mr. T. Wylie, 1, Royal Bank buildings, Liverpool.
Mr. J. Harrison, Kingsbuildings, Chester.
Mr. T. F. Mercer, 18, Furgate, Sheffield.
Mr. J. Rosehill, Berkley-street, Birmingham.

And can be delivered by the Proprietor's own boats to any part of the kingdom.

MARTIN'S PATENT
FIRE PROOF AND ORNAMENTAL CEMENT,
APPLICABLE FOR
ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public as many years, and obtained as high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs STEVENS and SON however feel called upon to observe, that from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 50 per cent. in material, full 7 per cent. less in price, with an additional saving in labour of 10 per cent., the following a boon forty minutes for working, being less than one-tenth of the time of other cements of a similar nature, therefore worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; its advantages therefore cannot admit of doubt.

Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 126, Drury-lane, London.—Manufactory, Derwent Mills, Derby.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is solicited to these very excellent and well-known materials, which, for their beauty, durability, imperviousness, and cheapness are unequalled. THE PERMANENT WASH, as a substitute for common lime-wash or water colour, is an article which has long been wanting for stucco and brick work. It is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very little dearer than the common wash; and, being a non-absorbent, is admirably adapted for railway stations, mills, warehouses, malt-houses, barracks, prisons, &c. One cwt. is sufficient to cover, with two coats, 12 square yards. THE CEMENT, from the great reduction in price, and the establishment for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few hours; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds, and artificial work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HARE, at the Warehouse, 32, Steel yard, Upper Thames-street. A liberal allowance to wholesale dealers.
